DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David S. Safran on April 12, 2005.

The application has been amended as follows:

In the specification,

At page 1, enter the following sentence on a separate line immediately after the title:

--This application is a divisional of Application No. 09/874,231, filed June 6, 2001, now abandoned.--

In the drawings, pursuant to MPEP 608.02(w), the drawings have been amended as follows,

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

In Figure 1, insert the label --PRIOR ART--.

See attached informal copy of the drawing's changes. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Allowable Subject Matter

Claim 1 is allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of after the cooling, re-heating a portion of the side tube in which the electrode is sealed so as to soften the portion of the side tube and produce contact with the electrode while the portion is in a viscous, fluid state; and vibrating the re-heated side tube, while the temperature of the portion of the side tube in which the electrode is sealed is in a temperature range between a softening temperature and an annealing temperature of the side tube, in a manner causing the electrode to rub against the contacting portion of the side tube while the portion is in a viscous, fluid state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
